

Insulation	R-Value/inch	Price/sq ft
Fiber Glass	3.1	0.64
Cellulose	3.7	0.86
Polyurethane Foam	6.3	1

Window Type	U-value	Price/window
Aluminum Frame	0.56	400
Aluminum with Thermal Break	0.41	568
Wood Frame	0.3	168

The relationship between the center of glass U-Value and Assembly U-value is that they have a direct relationship. According to the assembly U-value equation, if U-value of the center of glass decreases or increases, the assembly U-value will also decrease or increase.
